

BUCKTHORN BAGGIE

Patent Pending

Instructions

Step one:

Cut any buckthorn (or plant) with loppers or saw leaving a 6 inch flat topped stump.

Step two:

Place proprietary plastic bag over flat topped buckthorn stump.

Step three:

Zip tie bag at middle of flat topped buckthorn stump. (up 3" from the ground)

Step four:

Make sure Buckthorn baggie is touching ground and fanned out at bottom to catch any new buckthorn shoots. Leave attached for one year.

Reusable
